DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 have been allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record to Yeap et al (US Patent 6,961,762 B1) fails to teach or suggest each and every feature of claims 1, 3, and 10, particular the last three steps of claim 1 and similarly in other claims, wherein an automatic recognition system for use in a wireless LAN which can detect a new joining portable device and provide the same with the new recognition number in an existing wireless LAN, as the server system will temporarily cut off a connection between the server and an existing portable device and select a IP address retained in the server to establish a connection with the new joining portable device; after establishing the new connection with the new joining portable device, the server use the initial SSID to re-connect with the existing portable device and send the same to the new joining portable device; and after receiving it, the new joining portable device temporarily terminate a built-in IP thereof and replace the built-in IP address with an initial IP from the server.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hrastar and Lynn et al (PTO-892 attached) disclose systems related to WLAN with different approaches.

4. **Any response to this action should be mailed to:**
